PROFILE SUMMARY

Final-year Computer Science student and Full Stack Development intern with hands-on experience building responsive UIs, interactive web apps, and computer-vision-driven interfaces. Strong foundation in JavaScript, React, and modern frontend tooling, with a consistent record of shipping polished, production-quality personal projects end-to-end.

EXPERIENCE

Full Stack Development Intern

NoviTech R&D Pvt. Ltd. | Coimbatore

July 2026

- Built and refined frontend interfaces across multiple internal project modules under senior engineering supervision.
- Collaborated on full-stack features, translating design requirements into functional, responsive UI components.

PROJECTS

Python Project Portfolio Website

- Built a responsive portfolio site showcasing 20 Python projects, integrating an in-browser Pyodide runtime for 14 live, interactive demos.
- Designed clean, ATS-friendly project pages with consistent UI components and navigation.

TruthLens — Fake News Detection System

- Developed the frontend and Chrome extension UI for a Flask + scikit-learn ML system trained on roughly 54,000 articles.
- Packaged the application with Docker and delivered full documentation as part of final-year project submission.

R.A.V.A.N.A. — AI Desktop Assistant

- Redesigned the assistant's UI with a glassmorphic interface and refined interaction flow, including wake-word removal and voice-triggered shutdown.

EDUCATION

B.Sc. Computer Science

Final Year

SRM Arts and Science College, University of Madras

SKILLS

Technical Skills

HTML5, CSS3, JavaScript, React, Python, Git & GitHub

Soft Skills

Problem-Solving, Team Collaboration, Adaptability, Time Management
